

Understanding and Preventing Floor Covering Failure

When: Wednesday, April 1, 2020

Where: Hampton In by Hilton Winnipeg Airport/Polo Park
730 Berry Street (Room-Polar Bear A)

Time: 2pm to 5pm – Snacks included

Cost: Non-members \$150 + GST; Members \$95 + GST per person

Who should attend?

Salespeople. Installers. Managers. Owners. Estimators. Project Managers. Product Representatives

Chris Maskell, CEO, NFCA

Chris will be discussing National Floor Covering Association standards and information on specifying and using the NFCA Floor Covering Reference Manual. Course content will also include:

- Scope of work and the power of the specification.
- Testing requirements
- Problems, solutions and resources.

Sheri Wildman, Canadian Architectural Manager, Ardex Americas

Sheri will give an in-depth introduction to the various methods of surface preparation required for installing self-leveling underlayment materials for concrete including proper primer choice and application.

The presentation also will include an understanding of the various types of self-leveling underlayments and potential problems for self-leveling applications and how to avoid them.
