**CLASS #1: LVT/LVP & RESIDENTIAL RESILIENT FLOORING INSPECTOR COURSE (April 17 & 18, 2023)**

This is an in-depth two-day course that will train future inspectors to become professionally qualified to inspect LVT/LVP (Solid Vinyl, WPC, SPC, mineral core, etc.) resilient floors. This course also offers a basic understanding of residential sheet vinyl inspection techniques.

Upon completion of this course, the inspector will have gained the knowledge and skills needed to appropriately gather the information required to not only determine the cause of most resilient flooring failures, but to also support their conclusion in a written report.

This course provides hands-on training from highly qualified instructors and will cover product understanding, installation methods, proper moisture testing, substrate preparation, maintenance, identification of common issues, inspection tools, and report writing.

**Course Duration:** 2 days + 2 virtual classes (Subfloor/Substrate, Report Writing)

**Course Fee:** \$900 USD

**CLASS #2: Advanced LVT/LVP & Commercial Resilient Flooring Inspector Course (April 19, 2023)**

This one-day course will train and qualify existing inspectors to inspect commercial resilient tile and resilient sheet products. This course will also provide an understanding of heat welding, linoleum, rubber flooring, and flash cove.

Upon completion of this course, the inspector will have gained the knowledge and the skills needed to appropriately gather the information required to not only determine the cause of most commercial resilient flooring failures, but to also support their conclusion in a written report.

This course provides hands-on training from highly qualified instructors and will cover product understanding, installation methods, proper moisture testing, substrate preparation, maintenance, identification of common issues, inspection tools, and report writing.

**Course Duration:** 1 day + 2 virtual classes (Subfloor/Substrate + Report Writing)

**Course Fee:** \$500 USD

**CLASS #3: LAMINATE FLOORING INSPECTOR COURSE (April 20, 2023)**

This is a one-day course that will train future inspectors to become professionally qualified to inspect laminate floors. Upon completion of this course, the inspector will have gained the knowledge and the skills needed to appropriately gather the information required to not only determine the cause of most laminate flooring failures, but to also support their conclusion in a written report.

This course provides hands-on training from highly qualified instructors and will cover product understanding (including the various locking systems), installation methods, proper moisture testing, substrate preparation, identification of common issues, inspection tools, and report writing. This class will also review noise and water warranties.

**Course Duration:** 1 day + 2 virtual classes (Subfloor/Substrate + Report Writing)

**Course Fee:** \$500 USD

**NALFA certification available for this day (must register through NALFA)**
